SEDAN | ELECTRIC VEHICLE | GITICOMFORT SERIES

# GitiComfort T29

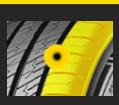
A reliable tire built for everyday driving, this option is ideal for ride-hailing vehicles and EVs. It offers long mileage, reduced road noise, and lasting durability giving drivers a quiet, efficient, and cost-effective ride every day.

| RIM SIZE | ASPECT RATIO | SPEED RATING |
|---|---|---|
| 15 - 17" | 50 - 65" | H - V |

WET DRIVING SAFETY | EXCEPTIONAL HANDLING | ENERGY SAVING AND ENVIRONMENTALLY FRIENDLY

## TIRE FEATURES

### COMFORTABLE AND QUIET

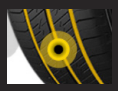


**SPECIALIZED GROOVES ON SHOULDER**

Level shoulder design provides more optimized vehicle control and performance

**NEV-OPTIMIZED STRUCTURE**

Widened ribs and a thicker structure are designed to provide strong performance in Electric Vehicles, while also improving standard ones



**CENTRAL GROOVES**

Wider grooves improve tread block rigidity and wet grip, as well as maximize comfort and silent driving

### FEATURE & BENEFITS

- New design sipes ensure the tread rigidity and decrease tire noise. Deeper optimized sipes keep the tread block and grip performance for long distance driving.
- Reinforced carbon black with tiny particles and high molecule structure offer high mileage performance.
- Jointless cap ply feature improves stability and safety at high speeds.
- Dual wide steel belt plies with high molecular material enhance tread rigidity. Meanwhile, grip and handling is improved, while decreasing tire transformation.
- Tire ply casing provides higher load capacity and sidewall strength.
- Optimized sidewall with thicker rubber protects the tire body. The rubber covering the sidewall also decrease tire wear and damage
- The optimized apex improves sidewall rigidity and offers improved handling and comfort.
- High tension bead steel helps avoid tire breakage, holds inner tire pressure, and ensure the drive safety.
